[Contest Info](#) [Rules](#) [Judges](#) [Prizes](#) [Winners](#)

Our 2nd Annual Stage 32 Happy Writers Search for New Blood screenwriting contest was a record breaker! We received thousands of scripts from all over the world looking to compete in what has become one of the most highly respected screenwriting contests in the industry. Nearly every one of our screenwriting contest winners has been signed, staffed or put into development!

In this year's Search For New Blood we received an amazing amount of *quality* scripts. Our judges repeatedly told us how impressed they were by the creativity and imagination of the material and how difficult it was to cut the list down to those listed below.

Today we announce the finalists for the 2015 Stage 32 Happy Writers Search For New Blood Contest. A heartfelt congratulations goes out to all who advanced to this round, which was not easy. All finalists below will be posted in a special section of Stage 32 where any of the 400 industry executives we work with will be able to view them. If there is interest beyond the logline, we will facilitate the communication between the executive and the writer.
